Info And Comments For: Amulet of Selene 8x4 - 2 = 30

Comments: an ancient (pre-Rome) artifact of the goddess Selene, which grants Therius magical powers. Therius keeps it around his neck at all times.

Info And Comments For: Power Cestus 2x4 = 8

Comments: Powerful energy charged cesti that Therius wears on his hands when in combat. Normally he keeps them in pouches which he wears like holsters around his torso.

Info And Comments For: Awkward Size 1x-1 = -1 (2 times normal size)

Comments: being a horse in a world designed for bipeds is sometimes inconvenient

Info And Comments For: Ism - Centaur 1x-1 = -1 (Small Degree of Discrimination)

Comments: some people look a bit askance at Therius because he isn't a typical science hero.

Info And Comments For: Red Tape 2x-1 = -2 (Difficult to Manage)

Comments: - as a Lieutenant Therius has to do a lot of paperwork for the squad.

Info And Comments For: Unappealing $1x-1 = -1$ (Slightly Unappealing)

Comments: not everyone is keen on dating a centaur - even one who is hung like a horse.

Info And Comments For: Cursed by Vesta $1x-1 = -1$ (Slight Disadvantage)

Comments: Therius's ex-wife on Nova Roma was a devotee of Vesta, and when the couple broke up she laid a curse on Nerius. Since Vesta is the goddess of the hearth, Therius is constantly suffering from problems at home - plumbing doesn't work, electricity going out, infestations of cockroaches, things like that.

Info And Comments For: Marked $3x-1 = -3$ (Cannot be Concealed)

Comments: Therius looks like a centaur. That is pretty distinctive in Neopolis, though less so in Nova Roma.

Info And Comments For: Nemesis - the Caligulator $3x-1 = -3$ (Always interfering)

Comments: - an extremely dangerous nutcase from Nova Roma who either is, or believes himself to be the reincarnation of Emperor Caligula. [Think of him as Joker-esque - murder for art's sake, that sort of thing - but not as witty and more cruel]. Responsible for a long series of murders in Nova Roma, but eventually busted by Therius in a whopper of a fight that left Caligula paralyzed from the neck down. He had influence in the Senate, however, and managed to sneak off to Dimension 10 before he could be hemlocked. Since then he has reportedly managed to get himself some sort of powered armor suit.

Info And Comments For: Famous $2x-1 = -2$ (National Fame)

Comments: known and loved by the centaurs of Nova Roma. Known and hated by many of the Praetors and law enforcement personnel of Nova Roma.

Info And Comments For: Skeleton in the Closet $2x-1 = -2$ (Reputation impacted seriously)

Comments: Therius bought favour from someone in the Nova Roma Senate by performing some unsavoury deed. In exchange, the senator agreed to sponsor Therius's application to join the Praetorian Guard (under an affirmative action program, no doubt.)
